WAS Global Perspective Summer Camp

Bridging Cultures, Embracing Future

Camp Highlights

The WAS Global Perspective Summer Camp offers an unforgettable journey that immerses international students in a deep exploration of China. Combining cultural immersion and cutting-edge technology exposure, our mission is to broaden students' global horizons, nurture cultural appreciation, and foster lifelong international connections.

Embrace China's Modern Development

Discover cutting-edge technologies and innovative advancements that have transformed China into a global powerhouse. Through STEM project learnings in the state-of-the-art DT labs at school, immersive experiences, inspiring company and factory visits, exciting excursions, and dynamic discussions, students gain a firsthand understanding of the technological and industrial transformation shaping China's future. This remarkable adventure bridges cultures, sparking curiosity and global awareness.

Chinese Cultural Exploration

Our carefully curated selection of courses and excursions allows students to experience China's rich historical and cultural heritage. From exploring ancient traditions to hands-on craft workshops, these experiences not only deepen the appreciation of China's five-thousand-year history but also create lasting memories.

Immersive Chinese Language Learning

Guided by a team of experienced educators, our programme integrates immersive, advanced language learning with practical in-school language applications. Chinese serves as the primary medium of instruction, complemented by English for students at varying language proficiency levels. Students are encouraged to collaborate with their Chinese peers across various activities, enhancing their language skills throughout the day, even during boarding time.

WAS Global Perspective in China Summer Camp

Students delve into Chinese language, culture, and modern development of China. As they navigate the fusion of Chinese and Western traditions, they forge a broadened global outlook, enhance critical thinking abilities, and refine the communication skills.

In the Classroom

GP students will be provided with amazing in-class learning opportunities. Whether collaborating with other Chinese and international students, or working on their own independent projects in STEM labs, WAS experienced teachers and top-notch facilities ensure a meaningful and fun learning experience.

Our Chinese learning curriculum is rooted in the belief that culture is the foundation, followed by practical skills in listening, speaking, reading, and writing. Our experienced teachers customize lessons to suit each student's proficiency level. Students will explore Chinese characters, delve into classical literature, appreciate traditional clothing styles, immerse themselves in the tea culture, and resonate with Chinese rhythm and music, enriching their culture understanding and language skills.

Beyond the Classroom

Beyond the classroom, our students will discover a world of exciting sports, from rugby and rowing to netball, tennis, swimming, soccer, volleyball, basketball, and table tennis. Through the spirit of sports, competition, and teamwork, they will collaborate with peers from diverse cultural backgrounds.

We also provide opportunities for company visits and cultural trips for the students. In 2024, our UAE students' group of the Global Perspective Camp visited the A.I. Future World institute, where they participated in a series of workshops sessions and designed their own robots for competitions.

In addition, visiting an automated electric car factory allowed them to experience China's advancements in precision manufacturing firsthand.

As the day unfolds, a vibrant tapestry of boarding life comes to life. Students will savor authentic Chinese cuisine and immerse themselves in traditional Chinese board games, all while navigating the nuances of boarding life. This experience enhances their self-reliance, discipline, and interpersonal skills, fostering connections that transcend cultural boundaries.

Exploring Beyond Academic Boundaries

Our camp embodies the "Education Beyond the Classroom" philosophy. Students embark on academic excursions to cultural landmarks such as museums, Chinese gardens, and historical sites. They explore Chinese history, art, and culture, experiencing unique activities like traditional tea ceremonies and shadow puppetry.

In addition to cultural exploration, students will tour green energy facilities, gain exclusive access to cutting-edge industries, explore China's technological advancements, and engage in discussions with Chinese peers on global topics, fostering a blend of Eastern and Western perspectives.

In the summer of 2024, WAS achieved a breakthrough with its Global Perspective program, welcoming 90 future leaders from the United Arab Emirates and 30 students from Thailand to the campuses in Changzhou and Hangzhou. The students developed STEM projects using our advanced DT labs, participated in bespoke academic classes, and engaged in Chinese cultural activities. They also visited Taihu Lake, drawing inspiration for future water system designs. This initiative has strengthened our partnerships with foreign governments and agents, and we aim to expand our global network by connecting with more partners worldwide.

Sample Weekly Schedules 1

As we introduce our 2025 WAS Global Perspective in China Summer Camp, we draw from a wealth of experience to present an unparalleled educational journey.

Timetable Example

Time	Activity		Week 1					Weekend		Week 2						
		Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday	Sunday	Monday	Tuesday	Wednesday	Thursday	Friday

Student and Parents Testimonials

WAS 2024 Global Perspective Summer Camp UAE Students

Hazaa Alkatheeri

"My impression of China is that it was unexpected to see the differences between China and my country in the UAE. The way of teaching and learning here is very different. It was unexpected and actually very good, and you can have fun if you come to China. I'd recommend my friends and families to come to this school specifically for the next summer because they can have as much fun as I had, maybe more!"

Mansoor Alhosani

"The school is very good, maybe the best school in China. They have good sports here. I will talk to my friends and family to come here next time."

Hazza Alhajeri

"I made a lot of Chinese friends here. They are really good people, really kind and respectful. Our communication couldn't be better than it is."

WAS 2023 Summer School Parents and Students

Rachel (Mainland China, Rowing Camp)

"This was my first time trying out rowing, and I was so pumped on the first day in the water! The teachers and coaches here are very patient in teaching me from the beginning. Besides rowing we also tried some other sports too and they were all very fun. This has been the best summer ever!"

Mother of Sophie (Hong Kong China, Chinese Language and Sports Camp)

"China's growth has been swift, and by studying Chinese, my daughter has gained deeper insights into the country's technological progress and other advancements. She's quickly becoming quite the aficionado on China. This knowledge will undoubtedly serve her well in her future endeavors."

Omelio (the United Kingdom, Steam Camp)

"My teachers in the camp were super cool and kind. I've made two awesome friends from China, too! We are still seeing each other when we have time. All the experiments we did in the summer were very fun, and I learnt a lot."

About Wycombe Abbey Schools

Wycombe Abbey Schools International

Wycombe Abbey, located in Buckinghamshire, UK, is a leading independent sector school renowned for its educational excellence. It consistently ranks at the top in all major league tables and has a strong record of university destinations.

Wycombe Abbey Schools International are Wycombe Abbey's sister schools outside the UK. In China and East Asia, these schools operate in an exclusive partnership with BE Education, a leading primary and secondary educational consultancy in Asia with offices in major cities in mainland China, Hong Kong, Japan and Singapore.

Our four Wycombe Abbey Schools (WAS), one in Hong Kong and three in mainland China, offer world-class boarding and day schools for children aged 3 to 18. The schools provide an well-rounded, fully integrated, bilingual, holistic education based on the British educational ethos. They prepare students for entry to the world's top universities and equip them with crucial knowledge, skills, and competencies for life.

Our Wycombe Abbey Schools (WAS) in China

In WAS China, we focus on each pupil's personal growth and development and aim to cultivate future leaders who have both a profound understanding of Chinese culture and a truly global perspective, who are innovators and collaborative team players, as well as having compassion and a keen sense of social responsibility.

Wycombe Abbey School

Changzhou

WASCZ, founded in 2012, is an oasis on the banks of West Tai Lake in Changzhou and stands as the first sister school of Wycombe Abbey in China. Catering to students aged 3-18, WASCZ offers a British boarding experience and seamlessly integrates the essence of Chinese culture with global educational excellence. It was honored with the title of "International School of the Year" in 2022 and the "Supporting Excellence Award" in 2024 by the Boarding Schools' Association. Listed as the "Top Recommended 2024 Asia Pacific Schools" on The Spear's Index, ranked as "Top 150 Private Schools in the World 2024" by The Schools Index by Carfax Education, and recognized as "Accredited Member of COBIS 2024" (Council of British International Schools). WAS Changzhou is more than just a campus; it is a community with a soul where every child can excel.

100% of WASCZ graduates have proceeded to international universities of their choice, while 32% of them have gone to the world's top 20 Universities (QS Ranking), destinations include Cambridge, Oxford, Imperial, UCL, Edinburgh, Manchester, KCL, LSE, UC Berkeley, UCLA, Columbia and Johns Hopkins.

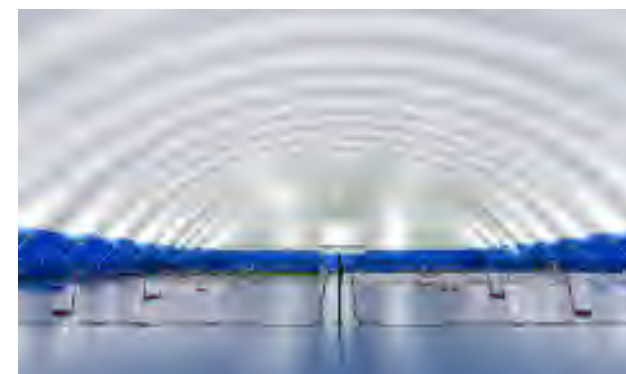

Location:

WASCZ is strategically situated in Changzhou City, Jiangsu Province, within the dynamic eastern corridor of China. As part of the bustling Shanghai metropolitan area, our location offers unparalleled transportation convenience. In just an hour by high-speed rail, students can explore ancient Nanjing, the culturally rich city of Suzhou, or the sprawling metropolis of Shanghai.

Changzhou is at the forefront of championing green development in line with national directives. The city passionately drives the evolution of the environmental protection sector, establishing itself as a pivotal production hub for solar energy, wind energy, and electric vehicles. This transformative journey has earned it the moniker "City of New Energy."

Our locale facilitates engaging academic journeys through Chinese history, gardens, opera, and intricate embroidery. Changzhou itself boasts historical gems such as the Spring and Autumn Yancheng Tourist Area, Qingguo Lane, Xiyongli Ming City Wall, the ancient canal, and the venerable Tianning Temple. These landmarks enrich our educational programmes and excursions by providing a rich historical and cultural context.

Wycombe Abbey School

Hangzhou

Established in 2021, WASHZ is located in the marble scenic area of Xiaoshan District, Hangzhou, adjacent to Fairy Lake to the south and near a national mountaineering trail. The campus includes a lake covering an area of 40 acres, which contributes to a natural environment that is truly unique.

The school features first-class facilities with strikingly original architecture that blends the traditional design language of British boarding schools with modernist elements.

WAS Hangzhou is a K-12 Co-educational bilingual British-style boarding and day school, that integrates the essence of Chinese and Western education. The school is an Accredited Patrons Member of COBIS, one of only two such schools in mainland China, and is a member of the Boarding Schools' Association.

In 2024, with its first graduating class, 100% of WAS Hangzhou graduates have proceeded to international universities of their choice, 92% of them have gone to the world's top 50 universities (QS Ranking).

Location:

WASHZ is located in the vibrant city of Hangzhou, Zhejiang Province, known for its rich cultural heritage and breathtaking natural scenery. As a dynamic hub within China's eastern region, Hangzhou is easily accessible, with high-speed rail connections making it just a short journey from Shanghai and Nanjing.

Hangzhou is at the forefront of innovation, particularly in the tech and e-commerce sectors, earning it the title of "Silicon Valley of China." The city is also a UNESCO World Heritage site, celebrated for its picturesque West Lake and classical gardens, which embody the serene beauty of traditional Chinese landscapes. Our location allows students to engage deeply with local culture, including tea culture, silk production, and traditional arts. With landmarks like Lingyin Temple, the Grand Canal, and the historic Qinghefang Street, Hangzhou offers a living classroom where students can explore the intersection of modernity and tradition.

Wycombe Abbey School

Nanjing

WASNJ covers an area of 20 acres in Jiangning District, Nanjing, adjacent to the Tangshan Hot Spring Tourist Resort. The school is surrounded by beautiful natural scenery, and the Tangshan area is linked inextricably to the historic rise of Eastern Nanjing.

The campus of WASNJ has been designed and built to the highest construction standards and specifications, integrating the concept of holistic education into every building and open space of the campus.

WASNJ inherits comprehensive education from our sister school, Wycombe Abbey UK, for kindergarten to high school students. Guided by the philosophy of holistic education, our commitment extends beyond fostering exceptional proficiency in Chinese and English, interdisciplinary inquiry skills anchored in real-world problem-solving, and the development of critical thinking. We also prioritize shaping each student's confidence, independence, and social-emotional growth through our tutorial system, diverse enrichment clubs, as well as trips and expeditions, both within China and overseas, in partnership with our sister schools.

Location:

WASNJ is located in Nanjing, in Jiangsu Province, one of China's ancient capitals, rich with over 2,500 years of history. As a key city in the Yangtze River Delta, Nanjing boasts excellent transportation links, connecting students easily to Shanghai, Hangzhou, and other major cities in eastern China.

Nanjing is recognized for its historical significance and vibrant cultural scene. Once the epicenter of Chinese civilization, the city has been a beacon of learning and art. Students can visit iconic sites such as the Sun Yat-sen Mausoleum, the Ming Xiaoling Mausoleum, and the Nanjing City Wall, which provide a unique backdrop for exploring Chinese history and culture. The city is also a leader in technological development, particularly in artificial intelligence and green technologies. Our programs in Nanjing combine academic excellence with the opportunity to immerse in a blend of the ancient and modern, offering a comprehensive and enriching educational experience.
